

I recently finished creating my 2016 Songbirds Calendars. In doing so, I used 3 jpegs pulled out of video.....(for the covers and last page) and 13 jpegs taken of paintings I made of various songbirds. Included among the original paintings are images of an American Redstart, Cape May Warbler, Cerulean Warbler, Chestnut-sided Warbler, Tennessee Warbler, Blackburnian Warbler, White-eyed Vireo, Blue-headed Vireo, Northern Parula, Summer Tanager, Dickcissel, Lazuli Bunting and Scott's Oriole. The calendar pages include dates of major holidays, starting dates of the seasons, full and new moon dates and starting and ending dates for daylight savings time.

Once I create a button here on this site specifically for these 2016 Songbirds Calendars, the cost for each will be \$14.99. Until that time, all visitors to this site who are aware of this blog can order them for \$12.99 each, or 2 for \$25. Use the Donations button on the Captain Kev's Products Page to submit an order at those special prices. To view all the jpegs of paintings used in creation of the calendar, click on the link on the Blogs page for the album in the photos section of my FB profile. Image below is of the Cape May Warbler....
