

I am offering a \$150 discount on full-day charters taken during the month of October. This discounted rate is available only to selected repeat customers and visitors to CaptainKevBlogs.com. In order for the discount to apply, charters must be run this month. No other discounts will apply, except for the single angler discount. Single angler charters will carry a \$300 minimum, while those involving multiple anglers will carry a \$400 minimum. Call 361 688 3714 to take advantage of these discounted charter rates this month. The water out there is incredibly clear right now and fishing is good!
